1. Claims 41-54 are allowed.

The following is an examiner's statement of reasons for allowance: Although prior art references disclose an apparatus comprising a portable record member with at least one audio track recorded on the record member - the audio track comprising a succession of signal recordings, recorded at a predetermined frequency and amplitude and delivered in a sequence of descending tones, there is no prior art of record which teaches a treatment for treating tinnitus sufferers which include recordings in a phase shift sequence such that the successive signal recordings are controlled by a phase shift network which shifts the phase of the produced sound at regular intervals such that each successive recording has a different phase and the sum of the phase shifts occupy at least a half a wavelength at a predetermined frequency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
